Thanks...

TO THE DENTISTS WHO HAVE
SENT US PROCESSING WORK

DUE to your generous cooperation and assistance we have been making satisfactory progress in establishing our laboratory.

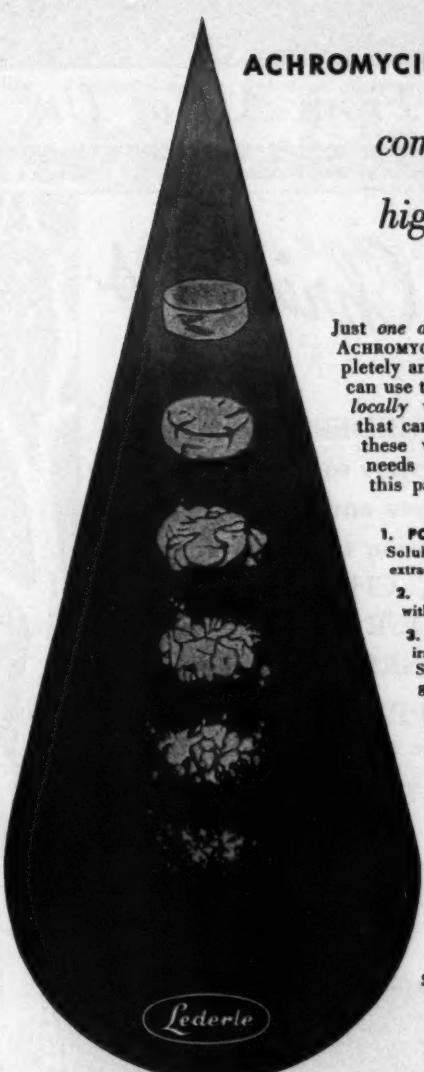

However, we need your continued support and trust that you will send us your cases for processing.

Your kindly words of encouragement and your favorable comments on the high quality of our workmanship are profoundly appreciated.

On all cases you send us, we pledge the same careful attention to your instructions and the same dependable deliveries.

ACHROMYCIN SOLUBLE TABLETS

completely soluble!

highly useful!

Just one drop of water is sufficient to place an ACHROMYCIN Tetracycline Soluble Tablet completely and quickly in solution. That means you can use this renowned broad-spectrum antibiotic *locally* without fear of undissolved particles that can cause foreign-body reactions. In fact, these versatile tablets fill *several* important needs in your daily practice! Just look at this partial list:

1. POSTEXTRACTION SOCKETS. Place ACHROMYCIN Soluble Tablet intact in socket immediately after extraction.

2. MEDICATED PACKS. Impregnate cotton rolls with solution made from tablet(s).

3. ROOT CANAL THERAPY. Make solution to irrigate root canal; solution made from ACHROMYCIN Soluble Tablet will readily pass through 20 to 25 gauge needles.

4. SYSTEMIC THERAPY for CHILDREN. ACHROMYCIN Soluble Tablets are easily dissolved in milk, fruit juices, and other liquids.

5. MOUTH WASHES. Prescribe tablets for patient's use in chronic disorders such as Aphthous Stomatitis.

ACHROMYCIN Soluble Tablets 50 mg. are available from your usual source of supply in bottles of 40 and 100. They do not require refrigeration. Order a supply today!

FREE For your convenience in prescribing ACHROMYCIN, Lederle has prepared special prescription pads. Write for yours!

Capsules: 250, 100, and 50 mg.
Soluble Tablets: 50 mg.

A New View of Dentistry

For the first time, a variety of instructive dental demonstrations, telecast in full color and beamed to TV screens $4\frac{1}{2}$ by 6 feet in size, will highlight the annual Midwinter Meeting of the Chicago Dental Society. The color telecasts will be produced and sponsored by Smith, Kline & French Laboratories, the Philadelphia pharmaceutical house that has pioneered the use of color television as an aid to postgraduate teaching.

While the novel character of medical color television was more than partially responsible for its initial overwhelming reception, the explanation for its continued success lies in the greater utilization of the medium's natural advantages for medical instruction. These advantages are most apparent in demonstrations of medical procedures, but the contributions of color TV to dental presentations are no less significant. Through the eye of the television camera, an audience of 1000 persons is enabled to follow details of oral surgery as clearly as if each viewer were present in the studio with the surgeon. From close-up shots of minute items, the camera can change focus and give a complete view of a large piece of apparatus like an X-ray machine. Thus, in the space of a few seconds, the audience views clinical material that is either too small or too large for demonstration in an orthodox platform presentation.

Dental clinics are designed to include a maximum amount of interesting visual

material. Charts, slides, X-rays, and all other forms of graphic information pertinent to the topic under discussion are employed. The dentist also benefits when patients and fellow specialists are introduced into his talk. While usually an awkward procedure on the platform, there is no difficulty before the cameras. Then too, the relative privacy of the studio in contrast to the auditorium usually makes the patient feel more relaxed. Should the program presenter conduct a round-table discussion with other dentists, the viewer in the audience is given what amounts to a place on the panel. The element of color lends naturalness and richness to the presentation.

When the camera is focused on an oral field, the visual picture given the audience by the large screens is better than that available to anyone in the dentist's office. At a recent dental meeting where oral surgery was being televised, three teeth as seen on the giant screens were approximately three feet high and five feet wide. While such a vivid picture would be somewhat frightening to a lay audience, the almost unlimited possibilities for dental education implied in this same picture should be apparent to every dentist.

The television program is under the chairmanship of Dr. Robert I. Humphrey, a past-president of the Society. It will take place in the Grand Ballroom all day Monday, February 6 and all day Tuesday the 7th.

EDITORIAL

STOP AND THINK

As the time draws near for the celebration of the Birthday of Christ and the old year draws to a close, it would be well for us to stop and reflect upon our accomplishments. What have we done to make real in our every day living the spirit of Christmas? What have we done to make our Society just a little more effective? What have we done to improve ourselves, our service to our patients and to our community? Taking stock is good business practice, why not take an inventory of our deeds? Maybe this sounds like preachment, but somehow as we scan over the last few years with the increase in illegal practice of dentistry, the lack of law enforcement by the agencies whose responsibility it is to carry out the statutes, the seeming disunity that crops out from time to time, the unjustified accusation that the Society is anti-labor, which is neither fact nor truth, and a general attitude of indifference as to our responsibilities and one begins to wonder. Certainly only a unified effort and an alert and dedicated membership can meet and overcome these problems which confront us.

Christmas time is a time of hope and the New Year a time of resolve to do better, to face our problems unafraid and hopeful, to resolve personally that we work and study harder in order that we might better serve our patients, that we attend and support the activities of our Society, that we do nothing to cause disunity or harm to our Society. Then when 1956 will have ended we will have moved forward as individuals and as a Society.

Dr. Cecil H. Bliss in an address before the Pan-Pacific Conference laid down the following *10 Commandments for Success in Dentistry* that are very appropriate.

TEN COMMANDMENTS

1. Be unquestionably honest.
2. Know your business.
3. Train yourself to think in terms of success, that is positive thinking.
4. Be agreeable. Nobody likes a sourpuss.
5. Avoid arguments. Nothing is as futile and as fast a way to lose money and friends.
6. Be tactful.
7. Be modest. You can't squeeze credit out of the world.
8. Be a good listener. You never learn much if you have your mouth open all the time.
9. Remember names and faces. This gives nourishment for self-esteem to others.
10. Be genuinely interested in others. As it is, the world is too full of phonies.

NEWS AND ANNOUNCEMENTS

A.A.I.D. OUTLINES ITS MIDWINTER PROGRAM

The American Academy of Implant Dentures scientific program during the Midwinter Meeting should interest dentists in many phases of dentistry according to Dr. Allen G. Doner, Program Chairman.

The following lectures will be given:

1. Nutritional Values of Common Foods.
2. Some Chemical Factors in Periodontal Diseases.
3. Changing the Chemistry of the Patient in Periodontal and Alveolar Resorption Cases by Endocrine and Nutritional Treatment.
4. Biological Factors Influencing Bone Stability.
5. Clinical and Roentgenographic Diagnosis in the Construction of Complete Dentures.
6. Evaluation of Complete Denture Implants Over an Eight-Year Period.
7. Table Clinics on All Phases of Implant Work.

Leading speakers covering the above subjects should provide a world of valuable information for everyone. All A.D.A. members are invited.

Detailed program will be announced in the January 2 issue of the *FORTNIGHTLY REVIEW*.

U. OF I. ALUMNI ELECT NEW OFFICERS

Dr. Eli Olech of Highland Park recently was elected president of the University of Illinois Dental Alumni Association. A 1923 graduate, Dr. Olech is a professor of oral surgery at the University. He also practices in the Loop.

Elected to other alumni posts were Dr. Robert Underwood of Elmhurst,

president-elect; Dr. Robert Atterbury of Elmwood Park, vice-president; Dr. Edward J. Sullivan of Evanston, secretary; and Dr. Grant MacLean of Wilmette, treasurer.

Newly elected directors are Dr. James N. Lynch of Evanston, who served as president the past year; Dr. Arthur J. Skupa of Hinsdale; Dr. Fred N. Bazola of Berwyn; Dr. John M. Spence of Oak Park; Dr. Alvin J. Sells of Oak Park and Dr. Irwin Robinson of Chicago.

Drs. Underwood, Atterbury, Bazola, Spence and Robinson are all members of the U. of I. College of Dentistry faculty.

The election took place at the annual Alumni Day, November 9, which was devoted to the topic "Full Mouth Rehabilitation."

CHICAGO DENTAL ASSISTANTS ASSOCIATION

The fourth in a series of articles

What are the requirements for membership in the Chicago Dental Assistants Association?

Membership in the Association is available in several categories. These are:

Active—To be an active member, one must have a high school education or its equivalent, and be employed in an ethical dental office, clinic, hospital or institution. Membership in the Illinois State Dental Assistants Association and the American Dental Assistants Association is included with election to active membership. Annual dues are \$10.00.

Associate—Members who are no longer actively engaged in the vocation of dental assisting may become an associate member. All privileges of membership are accorded them with the exception of voting and holding elective office. Annual dues are \$6.00.

Student—High school graduates en-

rolled in dental assistant courses of one or more years in schools or colleges approved by the American Dental Assistants Association. Probationary period of first semester must be completed. Annual dues are \$2.00.

Out-of-Town—Any member of the American Dental Assistants Association can become an out-of-town member by application to the Governing Board of the Chicago Dental Assistants Association. Out-of-town members are not eligible to vote or hold elective office, but may serve as members of committees. Annual dues are \$2.00.

Life—Membership shall be granted to those members who have maintained active, continuous membership for a period of twenty-five years. No dues are levied.

Dues for all types of membership except out-of-town and life, include a subscription to the *Journal of the American Dental Assistants Association*. The bi-monthly *Journal* is devoted to the interests and education of dental assistants. The *Journal* keeps societies and members informed of help available to them through the committees of the American Dental Assistants Association. The articles published are of value to the new as well as the experienced assistant.

HYGIENE by Jeanne

Hey—it's Christmas Time! And, what a Christmas party we had; it was Thursday, December 6, at Younker's. Santa Claus came 'n everything. By the way, what did you get out of the grab bag?

Had a few newsy notes around here somewhere. Let's see:

Mom—flannel nite shirt

Dad—Bourbon-flavored tooth paste

Bubbi—cigarette lighter for the car he wants

Whoops . . . wrong list. Guess you'll just have to wait 'til next year to read what was to be told.

So for now—just continue on with your shopping, wrapping, baking, RUSHING, but remember, all your patients want for Christmas are their nice white teeth, their pretty pearly teeth, their

glistening teeth . . . (to the tune of "All I Want for Christmas Are My Two Front Teeth").

Christmas IS a wonderful time, you know; an extra-special grand day so have a real Merry One and . . . a H - A - P - P - P - Y New Year, too. (And same to you, Bosses!) — Jeanne Castle, 2669 Crawford Avenue, Evanston. DA. 8-3484.

REGULAR CORPS EXAMINATIONS FOR DENTAL OFFICERS FOR U. S. PUBLIC HEALTH SERVICE

A competitive examination for appointment of Dental Officers to the Regular Corps of the United States Public Health Service will be held in various places throughout the country on March 20, 21, 22, and 23, 1956.

Appointments provide opportunities for career service in clinical dental practice, dental public health, and dental research. They will be made in the ranks of Assistant and Senior Assistant, equivalent to Navy ranks of Lieutenant (j.g.) and Lieutenant.

Entrance pay for an Assistant Dental Surgeon with dependents is \$6,017 per year; for Senior Assistant Dental Surgeon with dependents, \$6,918. Provisions are made for promotions at regular intervals.

Benefits other than promotion include periodic pay increases, 30 days annual leave, sick leave, medical care, disability retirement pay, retirement pay which is three-fourths of annual basic pay at time of retirement, and other privileges.

Active duty as a Public Health Service officer fulfills the obligation of Selective Service.

Requirements for both ranks are U. S. citizenship, age of at least 21 years, and graduation from a recognized school of dentistry. For the rank of Assistant Dental Surgeon, at least 7 years of collegiate and professional training and appropriate experience are needed. For Senior Assistant Dental Surgeon, an additional three years, for a total of at least 10 years of collegiate and professional training.

(Continued on page 25)

*Where will YOU be on
Wednesday, February 8, 1956?*

All of your friends will be at the Midwinter Meeting Dinner-Dance in the Grand Ballroom of the Conrad Hilton. We hope you will join them. Call the Society office, RAndolph 6-4076, for reservations. Call now, or write!

Chairman, Entertainment Committee

ROBERT M. APPLEMAN

1902 - 1955

Dr. Robert M. Appleman passed away on September 25, 1955 at Veterans Research Hospital.

Bob, as he was known by his many friends, was born in Lafayette, Indiana on August 11, 1902. He was graduated from South Bend High School, where he played football. The team at that time was coached by Notre Dame's famous Knute Rockne.

He entered Indiana University School of Dentistry in 1921. The following year his father moved to Columbus, Ohio and Bob transferred to Ohio State, graduating in 1927, and was in private practice until 1941. From 1938 to 1941 he was on the staff at Ohio State in the Prosthetic Department.

On April 7, 1941 he entered the Service and was discharged in July of 1946. All of his military service was at Walter Reed Hospital in Washington, D. C., and during most of this period he was Chief of the hospital's Dental Laboratory.

In 1946, he joined the staff at Zoller Memorial Dental Clinic, where he was Head of the Prosthetic Department. In 1954 he left Zoller and joined the staff at Northwestern University Dental School where he was Chairman of the Prosthetic Department. He was also Consultant at Veterans Research Hospital and was on the staff at Passavant Hospital.

While Bob was on the staff at Zoller Clinic, he devoted his time to research and his activities were implants (Vitallium) on dogs, also surgical prosthesis in cleft palate rehabilitation.

Bob was a member of the Kenwood-Hyde Park Branch of the Chicago Dental Society, Illinois State Dental Society, American Dental Association, the American Denture Society, Odontographic Society, Omicron Kappa Upsilon fraternity, an associate member of the Academy of Denture Prosthesis and a fellow of the American College of Dentists.

Mrs. Appleman and Bob were married on August 11, 1928.

His wide circle of friends will miss him and his devotion to his profession. He always had a smile for everyone and dentistry was his whole life.

To his wife, Helen; and son, Robert, Jr., we would express our sincere sympathy.

—Jesse R. Carlton

Business Meeting to follow

Joseph S. Lebow, President

Regular Monthly Meeting of the Chicago Dental Society

November 15, 1955

Conrad Hilton Hotel

The meeting was called to order at 8:15 p.m. by President G. W. Solfronk.

Motion was made and seconded to dispense with reading of the minutes of the September meeting. These minutes were published in the November 1st issue of the FORTNIGHTLY REVIEW. Motion carried.

Motion was made and seconded to approve the minutes of the September meeting as published in the FORTNIGHTLY REVIEW. Motion carried.

There were no reports of boards, standing committees or special committees.

Under the heading of New Business, President Solfronk read a letter from Dr. Edgar W. Swanson, Assistant Treasurer of The Tuberculosis Institute of Chicago and Cook County, soliciting generous contributions to the Institute by purchase of Christmas Seals.

The President next introduced Col. Oscar J. Ogren, Chief Surgeon, Fifth Army. Col. Ogren has replaced Col. Haven who is now in Honolulu.

President Solfronk introduced Dr. Olaf Opdahl, Chairman of the Monthly Meet-

ing Program Committee who announced the program for the meeting. He then introduced Dr. Robert J. Nelsen of the Bureau of Standards, Washington, D.C., who presented an essay entitled "Hydraulic Turbine Contra-Angle Hand-piece."

Following Dr. Nelsen's essay Drs. John A. Anderson and Herbert C. Gustavson, our own members, gave short talks on "Practical Application of Today's High Speed in Organized Operative Technique."

These formal presentations were augmented by table clinic demonstrations by the several essayists.

President Solfronk then announced the program for the December meeting at which time Dr. J. Lewis Blass of New York will present a paper on "Doctor-Patient Relations for Good Management." At this meeting Certificates of Merit and pins will be presented to eleven of our members who have been in practice for fifty years.

Respectfully submitted,
Walter E. Dundon, *Secretary*.

NEWS OF THE BRANCHES

ENGLEWOOD

Merry Christmas

So-o-o-o, Harry Kazen approaches the bar on instruments (blindfolded and holding his nose) an' sez, "Waska, if I see it or smell it, my mouth waters and that dilutes it." An' then he goes on to tell me that he flew to Washington, D.C. and Baltimore to visit his brother, Nov. 23-27. . . . Kinda figgered that Louis Tirengel has been at war longer than Lucky Strike Green, so I checked. No answer to my call, but report has it that the dear boy is definitely "out" and is gradually gettin' over snappin' to attention every time Mrs. T. speaks to him. . . . Marion Hopkins made a mad dash to Allegan, Mich. on Nov. 18th with his stout bow and errors, stating positively that *this* time he was going to get him a bit of venison 'cuz the ground was covered with snow, an' he could follow the fresh tracks like anything. Nine hours later, Marion found that a deer had been following *him* all day. All Hop got out of it was COLD! Dec. twoth saw him at it again, this time in an Army "weather-all" which was to keep him comfy-cozy in any weather a deer could take. And *this* time Marion had a new stratagem. He wore his shoes *backwards* an' figgered on meeting' that there deer head-on! What won't a guy do for a "buck" these days. Ever put a little doe on the line, Hop? . . . Francis O'Grady had trouble gettin' the poison-dispenser to give me a Manhattan with an *olive*, an' I had to flash my Junior G-Man card to get it. Finally tells me that The Brothers Hatendorf (*not* by Dostoevski) have installed a new bit of fluff in the office, an' the li'l gal starts right out by hookin' the boys for a complete re-decoratin' job. . . . John Corrigan has been having the same trouble with the skilled boys that Francis has had for, lo, these many weeks.

Seems like you have to beg 'em to let them do you the honor and favor of paralyzing your pocketbook. . . . John McCarthy has the right idea. He did practically all the work on his new addition all by himself—and did it remarkably well, too, sez Frank. Call VI 6-3600. Reasonable rates. . . . Did you know that our Zeke Krol has been in the "toot-out" department of C.C.D.S. for some time now? . . . Ed Serr motored to So. Dakota to "check on the pheasant population." Reports it is *exactly* the same now as when he got there. Picked up his dad, who had spent the summer there, and brung him back to Chicago. . . . John Lace was braggin' about a new 135 mm. telephoto lens. In the next breath he tells me that he will be off for Long Boat Key, Fla. on Dec. 14th for finny finery. Don't sound to me like John expects to get very close to them fish, huh? Hey, John! I got me a 250 mm. you can borrow! . . . Had a ride in "A.G." Person's new Buick. . . . Bob Straub has a new red and white Buick convertible with all the extras. . . . Milt Cruse got back to Chicago on Nov. 8th, and we who are fortunate enough to have a chance to visit with him agree that he looks just wonderfully fit. It was Dr. Cruse's great pleasure to have had two pilots fly him over much of Texas. Both his daughter and her husband are throttle-pushers. . . . Les Kalk added a third cluster to his Grandpappy Medal on Nov. tenth. Four granddaughters! . . . "Uncle Tom" Starshak lost another four hundred dollar exemption on Nov. 26th when daughter, Ruth, exchanged vows with Mr. Edgar H. Martin. The couple are honeymooning in Nassau. Tom *Mrs.* her . . . Dr. and Mrs. Tom Starshak, Jr. were reported flying from their base on Okinawa to Hong Kong for a bit of a vacation. . . . Frank Ryan did time in Illinois Central Hospital coolin' off an ulcer. . . . Larry Lucas finally dug in at 10900 Michigan Ave. on Nov. 1st. . . .

G. G. Berg and H. Waalkes were guests of the Caulk Company during their tour of the plant, and report having had a wonderful time. . . . Emil Aison has retired from private practice and is now devoting all his energy to hospital work, being the senior attending oral surgeon on the staff of Mount Sinai Hospital. . . . Well, gang, I gotta take my afternoon nap now. Gotta slow down a bit, you know. Not as young as I used to be, and all that. "Sure," hollers the Lie Detector, "now that you're 45, all you exercise is caution!"

Happy New Year

ing and appropriate experience, are required.

Entrance examinations will include an oral interview, a physical examination, written objective examinations in the professional field, and a practical examination in the various phases of dentistry.

Application forms may be obtained from the Chief, Division of Personnel, Public Health Service, Department of Health, Education, and Welfare, Washington 25, D. C. Completed application forms must be received in the Division of Personnel no later than February 10, 1956.

THE ACADEMY FOR ORAL REHABILITATION OF HANDICAPPED PERSONS

The Academy of Oral Rehabilitation of Handicapped Persons will meet on Sunday, February 5th, at the Conrad Hilton before the Midwinter meeting. The academy was organized in 1952 by a group of men who had a mutual interest in the handicapped child. They met for the first time at the American Dental Association meeting in 1953. The purposes of the academy are:

To promote and maintain high standards of dental care and treatment, to encourage and assist dental practitioners to prepare and qualify themselves, to promote research in all branches of dental care and treatment to promulgate the results of this research through the publishing of books, articles, press releases, lectures, correspondence courses and other means deemed feasible, and to advance dental science in private and public health.

The Academy invites those individuals who are interested to visit their meeting and if properly qualified, to join in this very worthwhile cause. Those interested and desiring further information can address the Secretary.—*Dr. Hugh M. Kopel, 19933 Livernois, Detroit 21, Michigan.*

NEWS OF THE BRANCHES

(Continued from page 20)

Granger. . . . And, wasn't that some presentation our Herb Gustavson and John Anderson gave at the Chicago Dental meeting? . . . Bill Semiloff and Stan Goldberg, of our Program Committee, did a good job with our all-day presentation by Dr. Humphrey, coupled with our regular meeting night. And, they are bringing us another "first"—a one-day course on Practice Management, given by Dr. Ercell L. Miller, of Columbus, Mo. The date is Tuesday, March 6th (so mark your calendars now), starting with a session from 1:00 to 5:00 p.m., cocktails and dinner at 6:00, a short business meeting and another address by Dr. Miller. Don't miss it! . . . This column is beginning to have real meaning. A number of our fellows have been getting mail from all parts of the country, asking for more specific information on things they are doing and studying, and one fellow was able to hear from a long lost friend, because he read in this column that he met a mutual friend at the A.D.A. meeting. . . . Henry Parkin's office was robbed during the lunch hour when both he and his assistant were out for lunch, and Hank was cleaned out of some \$3,700.00 worth of gold, including finished work, samples and scrap. . . . Wally Goldsmith gave a very enlightening and humorous talk before the Uptown Forum about his recent world tour. As its next speaker the Forum will have

Dr. Harold Westlake, Head of the Speech and Hearing Department of Northwestern University, who will talk on "The Mechanisms of Speech." . . . The Peterson Park Dental Building had its Open House on Sunday, December 4th. . . . Art Duxler and the Clinic Day Committee really did an unexcelled job in producing a day which attracted some 700 people. There were 36 table clinics and three oversubscribed and excellent Limited Attendance groups. Warren Gerber gathered together a very representative group of clinicians and Allen Gerber did yeoman work in the general arrangements. Dan Nechtow did a very reliable job in handling the limited attendance reservations. For assisting us in handling registrations and helping out in general, we are indebted to Anne Gattone, Helen McCarthy, Ruth DeYoung, and Mae Barkley (dental assistants), who started the day at 7:30 a.m. with breakfast at the hotel with the Branch officers, committee chairmen, and yours truly, to line up the work of the day. There were many visitors from other branches, as well as CDS president, Gus Solfronk, and our president-elect, Ed Luebke. This clinic day also had two innovations—our committee invited those students of the North Side High School graduating classes who are interested in studying dentistry or dental assisting, and had a company distributing free dietetic soft drinks (no sugar), which helped to quench many a thirst. Mr. Edgar Stephens represented the CDS at a booth

AGENTS FOR THE DISABILITY AND HOSPITAL PLANS OF THE CHICAGO DENTAL SOCIETY

with a complete assortment of their literature that is available to dentists. He commented that most interest seemed to be centered on health pamphlets, with very little interest in the illegal lab problem literature. Evidently we dentists only gripe about the problem when we are personally hit by our losing patients to the illegal labs. Mr. Kiefer manned the A.D.A. booth and reported a lively interest in A.D.A. literature. They have some very excellent material for patient distribution. Dr. Bethuel Gross gave an informative talk on the "Psychology of Patient-Dentist Relationships" at the very well attended luncheon, which was so ably arranged by Dinner Chairman Ernie Gillis. Everyone present at the Clinic Day was presented with a flower by the Allied Florists Association. All agreed this was a terrific event. . . . Remember the Midwinter Meeting at the Conrad Hilton. . . . Merry Christmas, Everyone!—*I. H. Shapiro, Branch Correspondent.*

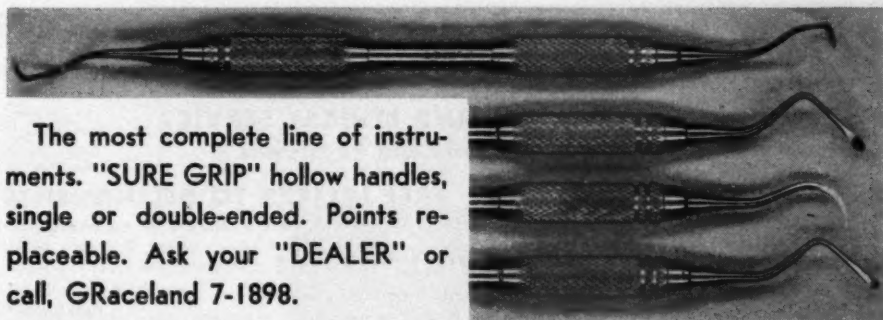

WEST SIDE

Program Chairman Max Chubin wishes to announce that the guest speaker for the Tuesday, January 10, meeting will be Dr. Henry Ricewasser, Associate Professor of Medicine at the University of Illinois, College of Medicine. His topic for the evening will be "Medical Conditions Affecting Dentistry." Dr. Ricewasser will discuss these specific disease categories: cardiovascular problems,

blood dyscrasias, infections, toxins, metabolic diseases, and congenital diseases. . . . Dan Laskin and Irwin Robinson were elected into the American Society of Oral Surgeons at the recent convention in Los Angeles. . . . Dan was also recently promoted to associate professor of Oral Surgery at the University of Illinois, College of Dentistry. . . . Fred Bazola is now a full professor in the Crown and Bridge Department at Illinois. . . . Major Jack Ehrlich with the Air Force in Waco, Texas, expects to be discharged in April of 1956 and will return to Chicago to resume his practice of orthodontia. . . . Joe Josh is recuperating at Tucson, Arizona for a few months after a lengthy siege of virus pneumonia had laid him low. He conveys his best wishes to the Branch members. Anyone wishing to write can reach him at 4534 E. 17th St., Tucson, Arizona. . . . Walt Zipprich signed up five more men at the last meeting and now has 34 paid up dinner tickets. . . . Irv Miller, Jr. is now practicing in Rood House, Illinois.—*Victor Ganz, Branch Correspondent.*

KENWOOD-HYDE PARK

A great deal of enthusiasm has been expressed about the program for the current year and there is still more to come. On January, Dr. Robert Pinkerton will discuss an indirect inlay technic and, on the same program, Dr. John M. Spence will follow with a direct inlay technic and

The most complete line of instruments. "SURE GRIP" hollow handles, single or double-ended. Points replaceable. Ask your "DEALER" or call, GRaceland 7-1898.

La Hirt Dental Specialties, 2653 N. Orchard St., Chicago, Ill.

a summarization of both technics from an academic standpoint. This will also be Past-President Night—so all of you past-presidents come on out and be honored. On March 6 the theme for the evening will be Bridgework of 1956 and will be presented by Dr. Walter Buchmann. On April 3 we will have a fabulous Clinic Night—a correlation of the whole year's program into an evening of table clinics and Clint Fisher has promised numerous innovations. Then comes Ladies' Night on May 1. A spectacular program has been planned to entertain the little dolls. . . . Mark these dates now and Henry Leib will be glad to take your advance reservations for the remainder of the Kenwood year. Call Henry, MI. 3-9607, and he will also tell you his new son's name. . . . Gramp Libberton is seriously ill and confined to a hospital. . . . Graham Davies is going to Wisconsin for the Holiday. . . . Rudy and Mrs. Grieff are going to spend Christmas in Rhinelander, Wisconsin with relatives. . . . Henry Urban will head South to spend his holiday with his Dad in Florida. . . . Stan Korf has received an appointment to the faculty in the department of Pedodontics at the University of Illinois—our congratulations to you, Stan. By the way, Stan, has the pool been used for ice skating yet? . . . Bob Kreiner's mother-in-law passed away and the members wish to express their sympathy to Bob and Mrs. Kreiner. . . . Ben Herzberg has already started planning on weddings, one in 1956 and another in 1957.

His daughter first and then his son. . . . Bill DeLarye has moved back into town for the winter. . . . Willard Johnson also moved back into town and this is for keeps. Willard is having a time getting used to the idea of being able to sleep late in the morning. . . . If you didn't get your Christmas goose yet, call on Bob Wells—Bob bagged 15 of them on his hunting trip near Cairo, Illinois. . . . John McBride got his Star Chief Catalina dirty in the last snow storm and traded it in on a 1956 Roadmaster. . . . With the Holiday season just a short way off, I would like to wish each of you a very Merry Christmas and hope that your Holiday will be an enjoyable one.—
Howard J. Harvey, Branch Correspondent.

WEST SUBURBAN

"And a Merry Christmas to All" is sung by the officers of the West Suburban Branch to all its members and friends, by Dick Anderson, Ed Kritzke, Wallace Kirby, Howard Buchner, Jack Opdahl and Joe Brophy. The branch will have a vacation from meetings in January to ready up for the Big Midwinter starting Feb. 5th. Plan on taking in the whole meeting. . . . There will be a Round Table meeting though on Jan. 9th at the Oak Park Club and the West Suburban Study Club will meet on Jan. 26th at Louis' Restaurant in Addison, with W. A. Link the speaker on Amalgam. . . .

The hunting season is still on, for Bill Sisson took a few days off recently. . . . Bob Cutlan and Fred Macaluso recently sat at the feet of Arne Larson of Minneapolis to learn something about occlusion. . . . Florence Lilley was honored in San Francisco by being elected President of the Upsilon Alpha Dental Sorority. She went to San Fran to M.C. their banquet and did such a grand job they kept her on the platform. . . . Congratulations to the Joliet dentists who after many years, much time and money, have rid the community of a chronic illegal laboratory violator and now have a permanent injunction against him, with a fair-sized fine and sentence. This takes effort and persistent pressure. We must do the same. . . . Let's hope we hear from the courts soon in the C.D.S. cases. . . . The Branch Correspondents, Earl Emery, John Poronsky and Marshall Milnarek will meet with the officers of the branch in early December so look for improvement in your next column; of course, we want news from all of you.—*Bob Pollock, Branch Correspondent.*

NORTHWEST SIDE

The first meeting of 1956 will be Tuesday evening, January 3, at the Wish-ing Well Restaurant. The evening's program, "Projected Clinics" is a new idea in branch meetings with only one previous presentation, at the last West Side Branch meeting. The clinicians and their subject matter are: Dr. Harold Epstein—

"Endodontia"; Dr. Frank Amaturro—"Cavity Preparation"; and Dr. Theodore Gordon—"A Dynamic Approach to Successful Fixed Bridge Prosthesis." A question and answer period will follow the clinics. This type of program is a Gerson Gould original and from what I have seen I feel that it is the coming type of program—and as a further and more positive indication, the number of projected clinics during the Midwinter meeting has been doubled. This meeting should not be missed. . . . And speaking of the Midwinter meeting, the closed circuit television program will last over two days of the meeting. This will be a first for our Midwinter meeting, and General Chairman Herman Wenger and his hard working committee are working diligently to make this feature a permanent portion of the meeting. . . . And speaking of hard workers, will Dan Kline find time to attend our meetings now that he is so busy with downtown business? . . . The Ben Davidsons are going to New York for the Greater New York meeting—and may sight-see a little bit, too. . . . Norb Templer is back at the bowling alleys after a short layoff. . . . And how is it that Al Waxler, who is at least 45 (he graduated in '31), was still eligible draft material and is now an employee of Uncle Sam? . . . Now to all, on behalf of the officers of the Northwest Side Branch and myself, very merry wishes for a joyous Christmas and an even more happy New Year, to one and all.—*Lee Schwartz, Branch Correspondent.*

He brought snow to New Guinea

DECEMBER 24, 1944. The captured, rebuilt airstrips bake under a blazing sun. No breeze stirs the kunai grass. The dim, weather-stained notice clinging to the mail-room door tells you Jap subs sank the ship carrying Christmas packages.

If you punch two buttons at once on the walkie-talkie, you can tune in on the Jungle Network. The song you hear is a favorite all over the Pacific. It seems to bring you home. "I'm dreaming of a white Christmas..."*

The man who wrote that song is an expert at cheering up troops. In 1918, Private Irving Berlin wrote his first all-soldier show, in 1942 his second: "This Is The Army," with which he toured almost every theater of war.

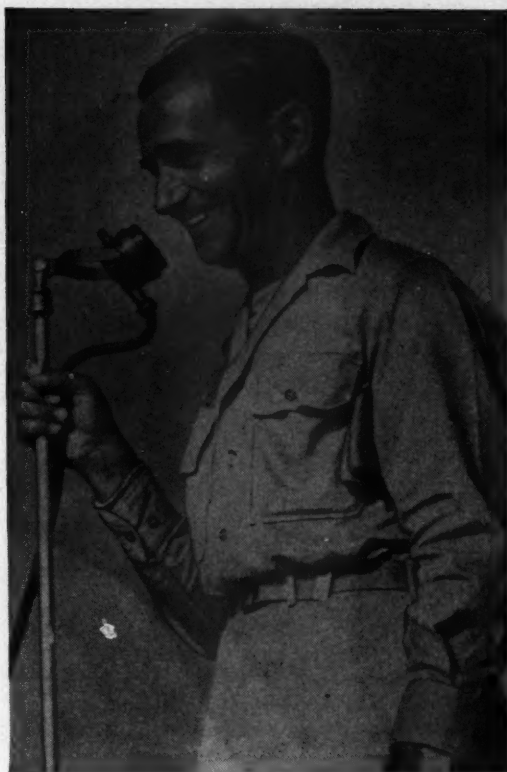

Berlin is also an expert at coming up the hard way. Immigrant to America at 5, on his own at 19, his first song earned just thirty-three cents. But Berlin always kept trying and never lost faith.

His hard-working, confident drive is a trait Americans set great store by. And Americans have a lot of it. Which helps account for the fact that our country's Savings Bonds are one of the world's finest investments.

For the drive of 165 million Americans stands behind these Bonds.

That's why it's such a sound idea for every American—for you—to invest regularly in U.S. Series E Savings Bonds, and hold on to them.

*Copyright 1942, Irving Berlin.

It's actually easy to save money—when you buy Series E Savings Bonds through the automatic Payroll Savings Plan where you work! You just sign an application at your pay office; after that your saving is done *for* you. The Bonds you receive will pay you interest at the rate of 3% per year, compounded semiannually, when held to maturity. And *after* maturity they go on earning 10 years *more*. Join the Plan today. Or invest in Bonds regularly where you bank.

*Safe as America =
U.S. Savings Bonds*
